

MINES ATTACKED IN WEBSTER AND CHRISTIAN

Union Men Who Recently Moved Camp From Madisonville to Providence Do Much Shooting.

NIGHT BATTLE AT EMPIRE AND MANY SHOTS FIRED

Union Camp at Providence Ordered to Move by County Judge.

While quiet prevails in Hopkins county, with the presence of troops, the men who recently moved camp from Madisonville over into Webster county, and beyond this restraint, began on Sunday another campaign of force at the Providence coal mines.

Sunday afternoon some union men went to the houses of employees of the Providence Coal Company, and notified them they must quit work, or they would be killed. It is reported that the men fired into the house of a colored employee, who used his shotgun in return, and slightly wounded two of the attacking party.

About 7 o'clock Sunday night union men from the adjoining camp made an attack on the Providence miners and were driven away by the fire of the guards and deputies in charge of the property. There was considerable shooting during the night, and Monday morning the invaders returned and made an attack after the Providence miners had gone to work. A battle ensued, with fifteen or twenty guards and deputies, in which several hundred shots were fired from Winchester and revolvers. Manager Nisbet was fired on. Some of the shooting was at close range but none of the men defending the property and miners were wounded.

The attacking party was driven off and fled precipitately, not even stopping at their camp, which Sheriff Hubbard found deserted when he visited it a short time after the fight. Their tents and belongings were there but no men. Blood was found in several places after the fight, indicating some of the union men had been hit.

Sheriff Hubbard was unable to find certain union men for whom he had warrants of arrest.

County Judge Hall, of Webster county was in touch with Providence by telephone and went there Monday.

The County Judge and the Sheriff were both in Providence Monday night, when about 8:30 o'clock another attack was made on the Providence shaft mine, which was guarded by only three men. About 40 shots were fired in two minutes and the bushwhackers withdrew. Percy Berry, Secretary of the company, was uncomfortably near the mine and witnessed the shooting. He was on his way home from town when the attack was made.

It is reliably reported that Judge Hall visited the camp later and served notice on the man in charge that the camp must break up within three days. The Providence Coal Co has been operating regularly with a full force and the men appear anxious to work even if they have to fight for the privilege.

BATTLE IN DARKNESS.

Empire Guards Fired Upon and 200 Shots Exchanged.

Hopkinsville, Ky., Oct. 14.—Saturday midnight unknown persons made an attack on thirty Empire mine guards, and a battle in the darkness followed, over two hundred shots being fired.

Owing to rain the posse had gathered in the engine house at the tipple. Two shots passed through the boiler-room, and the guards seized guns and ran outside. A hail of bullets fell about them, as the lights in the house made the guards targets.

Three of the attacking party were discovered trying to enter the company's powder magazine. They fled when fired on. For half an hour the shooting was continuous and desultory firing was kept up till morning. The Empire mines work regularly with full force.

WEST VIRGINIA MINERS

DO NOT WANT A UNION.

Ex-Organizer Warner Declares They Are Satisfied—Attempt to Organize Will Be Abandoned.

Ex-Organizer William Warner, who has been spending a great deal of time, and plenty of money, for the United Mine Workers, after having put forth his best efforts for about a year, has been dismissed from the service of his organization and his commission cancelled.

In a dispatch dated at Fairmont, W. Va., the following is given out:

William Warner, national organizer for the United Mine Workers, who attained some notoriety a few years ago by being sentenced to prison in Maryland for his participation in the riot in the George's Creek coal region, is no longer connected with the organization. This announcement comes from Mr. Warner himself, who is now at Clarksville, where he has been located for several months in an effort to organize the miners of the Fairmont region. Mr. Warner said his resignation was asked for by President Mitchell. He says that he and Mitchell disagreed as to the policy to be carried on in West Virginia, and frankly stated that he is no longer interested to Mitchell, or the organization with which he was so long connected.

When asked if he had met with any encouragement from the miners of the Fairmont region in his efforts to organize them, Mr. Warner said: "I have them. Our efforts to organize the miners here has been an utter failure. The miners seem satisfied with their present conditions. I have exhausted every means I know of to effect an organization, but have failed. The work will be abandoned. West Virginia miners are contented with their present prosperity."

Great Horse Hunt in Utah.

Salt Lake, Utah, Oct. 12.—Sporting interest in excitement of a buffalo hunt is scheduled to take place in Washington and Iron counties and across the Utah line into Northern Arizona tomorrow, when the people of Canyon district expect to set forth and exterminate as many desert horses as can be rounded up. Two years ago there was a similar hunt and nearly 500 horses were killed. This year they have again become so numerous that they are a nuisance.

REPUBLICAN CANDIDATES

Make Statement About the Ashbyburg and Oak Wall Speakings.

In the recent issue of the Hustler of Oct. 8, 1901, is published an article under the headlines of "A Great Victory for the Democratic ticket at Ashbyburg."

No article published during this campaign is so full of falsehood, misrepresentation and coloring of facts. We regret exceedingly, as Republican candidates to be compelled to resort to the public press that the fair minded people may know who are using "dark lantern methods," "slinking and slipping around like snakes in the grass, attempting to poison the minds of the people by falsehoods and appeals to prejudice."

We regret that Judge Givens would write such an article for publication without taking the pains to investigate by at least giving the Republican candidates a chance to make a statement of their side of the question.

As Republican candidates, we desire to give to the public a statement of the facts without coloring, and leave a fair-minded public to decide for itself.

We will first state that our appointments to speak at Oak Wall on the night of Oct. 4th at 7:30 p. m., and Ashbyburg Oct. 5, at 7:30 p. m., were announced through the press and by circulars posted in prominent places. At the same time the Democratic candidates had their appointment for speaking in the South end of the county. In accordance with our announcement we visited Oak Wall where we met a large crowd. Promptly on time we began our speaking to an attentive, intelligent audience. Just as Mr. Finley was making his opening remarks, Messrs. Laffoon and Bradley, Democratic nominees for County Attorney and Representative entered the house unexpected and uninvited and took their seats. At the close of Mr. McLaughlin's address which completed our list of speakers at our own appointment, we as candidates in a gentlemanly, quiet, decent manner, left the house for the homes provided for us by the good citizens of the neighborhood.

We had no appointment for a joint discussion. Our appointment had been filled, and we felt that if we wished to retire as gentlemen, in a gentlemanly manner, it was our privilege to do so.

The Hustler says, that "when the Republicans got through speaking and the gentleman with whom they were stopping, hurriedly left the house and endeavored to take the crowd with them." The above statement is colored with falsehood through and through, and is a reflection upon the good men who hospitably entertained us that night. We went as gentlemen, we spoke as gentlemen; we left the house as gentlemen, leaving the audience and school house to our Democratic opponents.

Our next appointment was at Ashbyburg. Here we met an overflowing house of men, ladies and children. Our speeches were made in the same order as at Oak Wall, viz: Finley, Murphy, Lutz and McLaughlin. Prof. Browning, the teacher of the school at Ashbyburg, who so kindly tendered us these of the school room, and who had announced our speaking before his school, we regret to say, on account of sickness was not able to be present. In his absence Mr.

J. E. Hartford, a young man who bears the marks of an upright gentleman and who sustains the reputation by a popular verdict of the good citizenship of Ashbyburg, acted as Chairman for the meeting and introduced the candidates to the audience.

As before, Messrs. Laffoon and Bradley entered the house re-enforced by Mr. Brasher.

We are glad, for truth's sake, that the Hustler states that, "Messrs. Murphy, Finley, Lutz and McLaughlin all spoke and were accorded as fine attention as was ever shown any speakers. No interruption or disrespect was shown them in the least, and they finished their speeches in their own good time."

We were filling our own appointment. Did we not have the right to take our time to speak to the people? The best evidence that we can give that we spoke like gentlemen is the attention given us. At the conclusion of Mr. McLaughlin's speech, Mr. Hartford arose and announced that the speaking was over. Mr. Hartford only represented the announced speakers for the evening. There being several lights in the room Mr. Hartford turned down and blew out the lamp on the front stand. This lamp was furnished by Mr. Hartford, so we were informed.

We, as candidates, having filled our appointment and having 21 miles to travel that night, in order to reach our homes in Madisonville, quietly, decently and in an orderly manner left the room and many others left with us. As we were passing down the aisle Messrs. Brasher and Bradley seemed to be engaged in a simultaneous oratorical contest, exhorting the people to stay and hear them. From a lung-power standpoint we do not believe their appeals have ever been excelled or seldom equaled.

The Hustler says, "but the Republican speakers, including Mr. McLaughlin, who boasted in the Tabernacle, that he 'feared no foe' beat a hasty retreat and endeavored to draw the crowd with them." We denounce this as absolutely untrue. We left in a quiet and orderly manner. We had filled our appointment. We had no arrangements for a joint discussion. Our Democratic opponents were there without invitation so far as our announcement was concerned. They had printed announcements to speak elsewhere in the county on these very nights. We did not in any way try to take the crowd away from them. As we left the school room pandemonium seemed to reign supreme and amid the speeches and cheers after we had left the house, three pistol shots were fired either inside or around the school house. This occurred while the Democratic speakers had the crowd and were speaking.

The Hustler says: "No doubt the Republicans will resort to all sorts of misrepresentation in order to avoid the just condemnation of fair-minded people all over the county for their behavior on this occasion."

We, as Republican candidates, are more than willing to leave the matter with fair-minded citizens of Oakwall and Ashbyburg, regardless of party affiliation.

We have conducted our canvass on a high plane. We have not been "slinking and slipping around like snakes in the grass," by going to Democratic appointments uninvited and unexpected nor we "attempting to poison the minds of the people by falsehood and appeals to prejudice," but we fill our own appointments

and exercise the right as free citizens in a free country to leave when through speaking, in a gentlemanly, quiet peaceable manner. In this connection we wish in a public manner to thank Prof. Otto Branson for the use of his school room and for the high-toned, courteous manner in which he treated us on the occasion of our speaking. We also wish to thank Prof. Browning for his school room and regret his inability to be present.

We make this correct, uncolored statement about the Ashbyburg affair and trust that the people may weigh what we have said, and we also trust that we as candidates may not be compelled to again appeal to the public press that justice may be done our actions, aims and purposes.

Respectfully,
C. H. MURPHY,
THOS. E. FINLEY,
C. M. LUTZ,
LATT F. McLAUGHLIN,

ROUTE OF L. & N. MAY BE CHANGED

Course of Line Between Edgfield Junction and Springfield May Be Altered.

It is rumored that the Louisville & Nashville will change the course of the line between Edgfield Junction and Springfield. It is said that the object of the new line is to avoid the grade between Baker's Station and Ridge Top, says the Nashville Banner. The grade at that place is one of the most dangerous in the country, and in order to give the safest and most rapid service it is thought that the road will be run around several stations, leaving out Ridge Top and probably Hyega.

A surveying corps is said to be in the field laying out two proposed routes. One is to leave the present main stem at Baker's Station, pass around Ridge Top and unite with the line again at Hyega. By the other route it is proposed to leave the main stem at Edgfield Junction and unite with it again at Springfield. This will throw several towns, including the watering places of Ridge Top and Hyega, off the main line of the road.

The Masonic Home.

The committee to select a site for the home for aged Masons after examining farms all over the State, have selected Shelbyville as the location and have decided to buy the farm of D. Ross Smith. The decision will be consummated upon the compliance by this county of the offer made to the committee in order to induce them to locate in our county. The Commercial Club, through its committee, agreed to raise two thousand dollars to be donated for the purchase of a farm and this money must be raised at once to insure the location of the home here. Mr. H. R. French, the chairman of the Masonic committee, was here Tuesday and made the final examination of the farms offered and selected that of Mr. Smith's as being the most desirable for their purpose. The location of this home will prove a great benefit to our community and our people should not leave anything undone to secure the prompt acceptance of their offer to come.—Shelby Sentinel, September 26.

Lecture at the Church of the Immaculate Conception, Earlinton, Ky., Oct. 24th at 7:30 p. m.

An unusual intellectual and musical treat for the citizens of Earlinton on Thursday, Oct. 24, 1901. The Rev. Edward S. Fitzgerald, a most eloquent and cultured clergyman, rector of St. Paul's Church, Owensboro, Ky., will lecture at the Church of the Immaculate Conception for the benefit of the Parochial School. Admission, free to all, but a small contribution is expected from all who will attend and who desire to show their appreciation of good education. A quartette of select voices led by the talented professor, R. G. Cox, will render a very choice program of classical and sacred music, see program.

ROW AT NEBO.

Trouble Follows Political Meeting Which Democratic Speakers Tried to Capture.

The Following communication is published by request of a number of leading citizens of Nebo: Nebo, Ky., Oct. 14.

EDITOR BEE:

For several days previous to last Thursday night it had been published that the Republican candidates for the various offices would speak at the court house in this place. When the time arrived the lamps were lighted, the bell was rung and the house was filled to overflowing. Thomas E. Finley was introduced and he proceeded to make his speech. Directly after he had begun his speech John Brasher interrupted him and demanded a division of time. Finley replied by saying that he was controlled by the campaign committee which had decided that (owing to the intense excitement prevailing in the county) it was best for the peace of the county not to have a joint debate. He was interrupted twice afterwards; once more by Brasher and once by some one else. After Mr. Finley was done Mr. Murphy was introduced and spoke for a short time. Mr. McLaughlin concluded the speaking as for as the Republicans were concerned and it was so announced from the platform.

Quite a number left the house notwithstanding Mr. Brasher's frantic appeals for them to remain. After the speaking quite a number were in the saloon where a dispute arose when, without warning, someone knocked a young Republican down. When he got up, although there were three to one, he waded in and in a short time had the whole crowd on a hurried retreat.

Now Mr. Editor, we appeal to all fair-minded people, is this fair and right to force themselves where they are neither wanted nor expected? If they cannot get a crowd to come out to hear them, let them make better speeches and they will have better crowds. The result last Thursday night shows the wisdom of the Republican committee in not having joint debates, as everyone is aware of the intense excitement prevailing over the county and if they cannot meet one time without a racket what might we look for if they met daily, thereby increasing the excitement.

FAIR PLAY.

Beats Kentucky.

The biggest moonshine distillery was discovered in Brooklyn the other day in a suburban cottage inhabited by Russian Jews. Its capacity was 150 gallons of proof spirits a day and its profits were \$500 a week. A wagon load of its products was captured, and the officers found the place by allowing the horse to choose its own route homeward.—Globe-Democrat.

Colson Nominated.

Middlesboro, Ky., Oct. 12.—The Republican convention to nominate a candidate to represent the Ninety-third Legislative district in the next General Assembly nominated ex-Congressman D. G. Colson by acclamation.

It has now been practically settled that the Colorado & Southern Railroad will install electricity as a motive power on all its suburban lines running out of Denver. The road also contemplates changing its locomotive fuel from coal to oil.

About 200,000 miles of railroad are operated in the United States.

The farm value of the potato crop last year was \$80,000,000; the hay crop \$445,000,000.

MINES LARGE OUTPUT

Given Over Coal Output of October, 1900, Which Then was the Biggest Month on Record.

AFTER ELEVEN MONTHS' AGITATING AND SHOOTING.

All Hopkins county mines were working full time with complete forces of non-union men, as they were in October, one year ago, which was then the banner month for coal production at the mines of the county. As to steady work and full force the same is true of the other non-union mines in this district—at Seebree, Providence and Empire.

In November 1900 the United Mine Worker agitators established headquarters and secured backing at Madisonville.

During January 1901—after Woods' strike order was promulgated and some intimidation and shooting had been indulged by the union men—during January the mines of Hopkins county put out more coal than ever before in their history, for one month.

The public should be pretty familiar with the many midnight assaults made upon homes of non-union miners, the ambuscades, the burning of bridges, the repeated assaults upon employees and guards at work, the

threats and intimidation, by union agitators and their followers. Every device that could be invented by wily and unscrupulous agitators and their attorneys and backers has been tried for eleven months. But the coal continues to come out of the mines with comforting regularity to operators and employees and consumers.

The figures of output for the county for October are not immediately available but enough is at hand to give a correct idea of what is doing. The St. Bernard group of mines produced more than one-half the output of the county. The output of this company for October 1900 was \$4,050 tons which was greater than any previous month's production but was surpassed by the output of \$8,736 tons for the same group in January following the "strike order." For the sixteen days of October 1901 the output of this group of mines shows an increase over one year ago of over one thousand tons.

WILL H. ROSS.

Well Known Negro Leader Dies at His Home at Madisonville.

W. H. Ross, the well known and leading negro of Madisonville yesterday of Bright's disease.

During life he for a number of years has been a leader of his race in politics, benevolent orders and educational and church work. He was a bright and influential young man of his race and will be greatly missed by his people.

Canceled.

Manager McGary has canceled the "Land O' Cotton," which was advertised as the next attraction, and Temple Theatre will remain dark until November 12, when Human Hearts will be played by a first-class company. "Land O' Cotton" was not giving satisfaction in the places they have shown this year, and as he wants to give theatre-goers the best attractions he can secure, thought it best to drop them. "Human Hearts" is a strong attraction, and is quite a drawing card in the large cities.

Delicious Apples.

Mr. James H. Laffoon, one of our thrifty farmers, presented the editor with some specimen apples from his orchard which are the most deliciously flavored fruit we have tasted. The name is unknown to the writer but they are large and beautiful and give choice. They are the best of many fine apples that have come to Earlinton this fall.

Lynch-Wright.

Miss Wright, daughter of Dixon Wright whose home is near Hiley, was married yesterday afternoon at her father's house to Mr. Lynch, of Dawson Springs. Rev. J. F. Story performed the ceremony. Miss Wright is a sister to Walter G. Wright of this city.

Summer must be the pride of the seasons, as it goes before a fall.

DOWN IN THE MINES.

In time of war bushwhacking may have been justifiable, but now when peace should reign supreme throughout the entire United States, it is certainly not a sign of a great civilization when bands of thugs calling themselves men can be found shooting at their brother men, while he is peacefully at work for support of wife and children molesting no one and only exercising a privilege guaranteed him by the constitution of the state and country, and obeying the command of God to earn a livelihood by the sweat of his brow. One of the lamentable features of the affair is the fact that for the grave offense of shooting at miners while en route to work not one step, so far as the writer is aware of, has been taken toward the punishment of these would-be assassins; not one of them is under arrest, and that in the face of the fact that life was only saved by poor marksmanship. Their will to murder was made plain when they fired upon Deputy Sheriff Farnett and others from ambush and when time after time guards protecting property according to law were shot at, has the state offered reward for their gang, who try to kill. It is true that a few warrants have been issued but a failure to secure a sufficient force to serve same has rendered useless the work of the county judges.

Much praise is due the Monroth Coal Co's miners for the courage displayed in pursuing their labors, even though time after time they have been shot at from ambush.

It is indeed a brave and noble fight the working miners of this county are putting up against the idlers who seek to kill them for an imagined grievance. The one thing that gives our miners courage to fight for their rights is that justice and right is on their side.

The great scarcity of coal cars the past week has led someone to remark that the railroad company should have additional cars constructed for this fast growing trade. The loss of business and wages is very heavy when one of the large mines of this county is compelled to shut down for a day or two during the week.

Said a well posted man last week soon after the sad accident occurred at the Arnold mine. "This is perhaps only one case out of thousands of similar ones that has proved fatal." He was referring to the carelessness of miners in keeping their lamps on their heads directly over a powder keg while getting powder from the same. The miners we understand have in many cases become accustomed to the practice and thus fall to see the danger.

Foreman Tombs and force will soon move the fan at the South Diamond mine and build a new fan house in the same connection after improvements are made.

If rumors afloat be true, much suffering will ensue to the idle U. M. W. and families before the winter is over, only half paid and a limited supply of fuel will be their lot. This dreary result is the work of unscrupulous agitators who care for self alone. Many of the sufferers are miners who once made big wages at work for the St. Bernard and other coal companies, but through the evil influences of the loud mouthed agitators they have become worthless.

One hundred thousand dollars was voted by a Kentucky legislature for the use of detecting and convicting the assassin of Goebel but thus far not a dollar has been offered for the detection or conviction of those who have attempted to take the lives of our miners. Justice impartial should be the watchword.

The colored miners showed the love they have for one another in the large attendance that was seen at the funeral of the late Lige Pritchett.

The U. M. W. evidently think they can see a friend in advance, when they attend a political meeting now, and the candidate that seems to please them is the one the working coal miner of this county now seeks to shun.

Welcher James B. Head of the Arnold mine says they lost considerable time last week owing to the lack of a sufficient supply of coal cars.

Mr. Eugene Browning, who has been crippled for months, and who of late has been with relatives at Princeton, Ky., was brought here last Sunday. Through the injury he received in the mine while at work his legs seem to be completely paralyzed. Much sympathy is expressed for him in his sad condition.

Somewhat is to blame for soldiers being called upon to protect the life and property of the Hopkins county coal operators and the miners who want to work, and it is the duty of the voters this fall to look the list of

candidates over carefully and if one is found who has ever by word or action encouraged in the least the U. M. W.'s to locate in our county his name should be scratched. The man who would sacrifice the property of our county for the sake of assisting a few votes should be defeated.

The Reinecke and Carbonado Coal Companies, under the protection of the militia, continue to do good work, a full force of miners being at both places.

At this time of writing word reaches us that firing upon the guards at the Empire mines still continues, and it begins to look like there will have to be a call made to the governor for the militia soon.

For some good and sufficient reason the U. M. W.'s changed their minds about the location of a camp at Barnsley. They don't feel at home unless they are surrounded by friends and sympathizers and close to a saloon.

Smithland—Zinc Mines.—De Witt Roberts has leased 300 acres of mineral lands in Livingston county from W. H. Edwards.

Kentucky—Coal Mines, etc.—Kentucky Coal Lands Co. has been incorporated, with capital stock of \$500,000, to develop coal, timber and oil lands throughout Kentucky and elsewhere. The incorporators are Malcolm N. Bueler, Solomon Hanford, Chas. F. Gehrmann, Frank S. Loomis and Walter R. H. Hardingham, all of New York City.

The coal trade of the United States is of phenomenal growth. In connection with Andrew Roy, the veteran geological and mining engineer of Ohio, during a visit to the Saginaw mines last month, he remarked that when he began work in the coal mines in 1850 the entire output of the mines did not exceed five million tons. "The anthracite mining region of Pennsylvania, the mines of Maryland and those of the Monongahela river district," he continued, "constituted the chief mining centers. As that time the Baltimore & Ohio railroad was not completed to Wheeling; there were no mines in Ohio or other Western States except what were known as country banks, which farmers had opened for local trade. Now the United States leads the world, and before the close of the first quarter of the twentieth century will produce more coal than the whole world combined. This is essentially an age of commerce and of steam, the four corners of which our coal mines feed."

The nation which has no coal must become the commercial vassal and slave to the one which possesses the black diamonds. Although black, sooty and repulsive to the refined civilization of modern times, coal is the very foundation of that civilization. It carries the commerce of the world to the remotest parts both by land and water; it is more potent than the gent of Orlingmund without coal this country would be today what the United States called it at the beginning of the last century—"a giant without bones." Coal is king, having long ruled the world, and before long it will reign by right of conquest; all other reigns of applied power—bow, dog, and steamage and reverence to its name."

Wanted: Fifty railroad men to subscribe for THE BEE between now and Nov. 18th. You get one column of railroad news each week, fifty-two columns a year for one dollar. The paper is well worth the price and keeps you posted on the local events that happen on the Henderson Division and is a wide-awake, up-to-date paper in every respect.

On account of the rate war among the roads leading out of Memphis, Tenn., and consequently a reduction on coal rates to that and other Southern points the earnings of the Henderson Division will not be so large this quarter as usually.

Ten miles of the extension of the B. & N. O. railroad has been graded and track laying has begun. It is expected to complete the line during the present year. It will be a branch of the Louisville & Nashville system; R. Montfery of Louisville is the engineer.

It is reported that several short lines will be constructed in the Birmingham district this year including seven miles in Blount county to be built by the Louisville & Nashville and about ten miles by the Southern railroad to coal mines in the vicinity.

KEEP YOUR BLOOD CLEAN

NEPO NOTES.

NEBO, Ky., Oct. 16.—Since the last writing we have been the recipients of a much needed rain which lasted from some time Friday night until Saturday afternoon. A regular gully washer and old field soaker.

Messrs. McLaughlin, Finley, and Murphy, Republican candidates for Representative, County Attorney and County Clerk, spoke to a well filled house here last Thursday night. When they had finished they were followed by the Democratic candidates for Representative and County Clerk. Some of the younger politicians not being satisfied with the war of words used by the speakers went at it in the old fashioned fist and skull way.

A Holiness meeting was begun at Bethany, a Northern Methodist church near here last week, and will continue two or three weeks. Rev. Critzer will conduct the meeting.

Mr. Wm. Jenkins was called to Dixon last week by the serious illness of his brother's child. Being on his wheel he was detained several days on account of the heavy rains.

Miss Callie Morrow left Monday morning for Lebanon, Tenn., where she will remain with friends and relatives until Christmas.

Prof. Ferguson being called to Hanson on business Monday, Miss Fannie Euley filled his place as teacher of the Nebo public school.

Mr. Jas. A. Hill, formerly of Providence, moved his household goods to the home of his daughter, Mrs. John Winsted, last week. He says he intends making his future home with her.

Dave Eudaley, of the L. & N., came home on a visit last week. Miss Lillian Roberts spent Saturday and Sunday with friends in Madisonville.

H. H. Hill and daughter-in-law, of Norton's Gap, spent several days near here last week.

Rev. Currie filled his regular appointment here Sunday. Allen Brooks left for Earlington Saturday morning where he will be working on the L. & N.

The Whole Truth!

There's nothing so bad for a cough as coughing.

There's nothing so good for a cough as Ayer's Cherry Pectoral.

The 25 cent size is just right for an ordinary, everyday cold. The 50 cent size is better for the cough of bronchitis, croup, grip, and hoarseness. The dollar size is the best for chronic coughs, as in consumption, chronic bronchitis, asthma, etc.

BANKERS AND BURGLARS.

Bankers Holding Their Annual Convention and Burglars Blowing Bank Safes.

FORMER IN SESSION AT MILWAUKEE.

The Latter Operating Wherever They Think There's a Chance For a Hunt and, as a Rule, Are Using the Dynamite Method for Gaining Access to the Vault.

Milwaukee, Oct. 15.—The twenty-seventh annual convention of the American Bankers' association began a three days' session here. Bankers from nearly every state in the Union are present. The members of the association represent a combined capital of over \$8,000,000,000.

The convention was called to order by the president, Alva H. Townbridge, of New York City, by the introduction of Alexander J. Burrows, president of Marquette college, who delivered the inaugural address of welcome. He was followed by Mayor David S. Rose on behalf of the city, and J. W. P. Lombard, president of the Milwaukee Bankers' association, on behalf of the local bankers.

The reply to addresses of welcome and the annual address of President Townbridge followed.

Annual Reports read. James J. Branch, secretary of the association, then presented his annual report, showing the membership and resources to have increased as follows: September 1, 1900: Paid membership, 4,591; annual dues, \$59,780; October 10, 1901: Paid membership, 5,341; annual dues, \$60,580.

In the past year 300 members were lost through resignations, liquidation and withdrawal from the association, reducing the membership to 4,191; 1,312 members have joined since September 1, 1900, a net gain of 900 members to a total membership of 1,112.

The roll now embraces 5,504 members, whose capital, surplus and undivided profits aggregated \$17,185,727,441 combined deposits, \$3,295,035,200; total, \$3,007,862,641.

The report of Treasurer George M. Reynolds was then presented, and Caldwell Hardy read the report of the executive council.

Frank W. Tracy presented the report of the committee on uniform laws.

A. B. Hepburn presented the report of the committee on international reform legislation.

FIVE CHARGES OF DYNAMITE.

The Vault of the Bank at Danville, O., Completely Wrecked.

MOUNT VERNON, O., Oct. 16.—The vault of the bank at Danville, O., was blown open, early Tuesday morning by a gang of robbers. Five charges of dynamite were used, and the bank building as well as vault was wrecked.

The explosions aroused the citizens and police officers, who rushed to the place, where the thieves, of whom there were eight, took to flight. They were followed to Buckeye City, where they had rigs in readiness, and drove hurriedly away. Pursuit was at once taken up, and a number of shots were exchanged, until Adrian's rig was reached, where the robbers were abandoned by the robbers, who sought cover. The woods had all roads in the neighborhood have been placed under guard, and it is expected that the men will all be captured. During the flight a buggy, in which two of the crooks were riding, broke down and they were forced to abandon it, riding away on the horses. In the buggy was found a large quantity of chickens, potatoes and other edibles.

THEY USED NITRO-GLYCERINE. Farmers' and Citizens' Bank at Tiro, O., Robbed of \$40,000.

TIRO, O., Oct. 16.—A gang of seven robbers made an unsuccessful attempt to blow up the Farmers' and Citizens' bank here yesterday morning.

Four charges of dynamite failed to crack the strong box. The citizens were aroused by the explosion, and they were forced to abandon it, riding away on the horses. In the buggy was found a large quantity of chickens, potatoes and other edibles.

INTENSE ANXIETY PREVAILS.

People Worried in Danville. Twelve Years' Opinions as to What Miss Stone's Captors Will Do.

New York, Oct. 13.—Concerning the case of Miss Stone, the kidnapped missionary, the Constantinople correspondent of the Journal and Advertiser cables:

People worried in Danville tactics presume the band, being well informed have fled, owing to the publicity given to the conditions of ransom, and expect the brigands will shortly send a new demand from some unexpected quarter.

Nobody fears that Miss Stone's life is at present endangered, as the brigands desire ransom and will not resort to extreme measures unless compelled by pursuit. The American of details will not divulge the plan of action they have arranged, but admit their intense anxiety.

RECLAIMED ARID LANDS.

Will be Sold to Actual Settlers at the Base Cost of Putting Water Upon the Land.

Helena, Mont., Oct. 12.—The state arid land grant commission which was created by the legislature with power to reclaim lands donated to the state by the general land office under the Carey act, yesterday celebrated the opening of the great canal system in District No. 4, which comprises 23,000 acres of splendid land in the Dearborn valley, Lewis and Clark counties. The state purposes to sell this land in tracts of 160 acres to actual settlers at only the cost of placing water upon the land, giving ten years for payment in ten equal installments at six per cent. interest. Eleven thousand acres are now ready for settlement.

PILGRIMS TO MONTICELLO.

Jefferson Club, of St. Louis, Making a Pilgrimage to the Tomb of Thomas Jefferson.

St. Louis, Oct. 12.—About two hundred and fifty members of the Jefferson club, headed by the club president, Harry B. Haves, left on a pilgrimage to the tomb of Thomas Jefferson, at Monticello, Va. The train consisted of eight sleepers and a baggage and commissary car, in which were stored cigars and refreshments of various and sundry kinds and brands.

THE SEARCH ABANDONED.

Washington's Care for the Safety of Miss Stone Dictates a Conclusive Policy.

Constantinople, Oct. 12.—In compliance with a request from Washington the search by Ottoman troops for the abductors of Miss Stone, the missionary, has been abandoned. It being feared that the brigands would still be in the country, and arrangements are now being made to pay the ransom demanded.

BANK SAFE BLOWN OPEN.

Robbers Get Four Thousand Dollars and Escape—Bloodstains in Parrot.

Omaha, Neb., Oct. 12.—A special to the World-Herald from Reynolds, Neb., says:

"The bank safe at Narka, Kas., was blown open at an early hour yesterday morning and \$4,000 in cash taken. The explosion awakened the citizens, but the robbers escaped before they could be apprehended. The bloodstains which were put on their shirt followed them all day, but last evening had not come up with them."

Postal Receipts for September.

Washington, Oct. 12.—The gross postal receipts for September at 50 of the largest post offices were \$1,222,732, a net increase of \$233,825, or 8.2 per cent. over last year. Receipts at only two offices decreased, viz: Jersey City, N. J., \$1,760,000, a decrease of \$1,760,000, or 100 per cent., and Grand Rapids, Mich., \$863, or over one per cent.

Columbus, O., showed the largest increase, 30 per cent., with Los Angeles, almost twenty-nine per cent., a close second. The receipts of New York were \$881,311, an increase of 8.2 per cent., and Chicago \$897,160, an increase of 1.3 per cent.

Neely Case in Cuba.

Washington, Oct. 13.—The war department is informed that the trial of C. P. W. Neely on the charge of misappropriation of postal funds in Cuba is in progress at Havana. No law officer of the United States government is engaged in the case, although testimony and depositions taken in this country have been forwarded to the prosecuting officer in Havana.

Men Outnumber Women.

Washington, Oct. 13.—The final census report on the population by sex, general nativity and color of the several states and territories was issued on Friday. This last bulletin of the series covers the entire country. It shows that the males number 39,055,445 and constitute 51.2 per cent. of the total population in 1900, while the females number 37,244,145, or 48.8 per cent.

CAPT. COOK TESTIFIES.

The Commander of the Brooklyn and Commodore Schley's Chief of Staff On the Stand.

HE PROVES AN INTERESTING WITNESS.

He Regarded Schley as an Enthusiastically Brave and Patriotic Officer. Capt. Cook Says That He (Cook) Gave the Order for the Brooklyn's Loop.

Washington, Oct. 15.—Just before the Schley court of inquiry took a recess for lunch Mr. Hanna asked Capt. Cook, who was on the stand, "What was the conduct and bearing of Commodore Schley under fire on such occasion as you had the opportunity of observing?"

"I always regarded him as an enthusiastically brave and patriotic officer; never in any other way," replied the witness.

Capt. Cook also testified that he (Cook) gave the order for the Brooklyn's loop at the battle of Santiago and that he considered the movement eminently successful.

THE DAY'S PROCEEDINGS.

Capt. Cook of the Brooklyn Proves an Interesting Witness.

Washington, Oct. 15.—Yesterday in the Schley court of inquiry, Judge Advocate Lemly concluded the presentation of testimony for the government, and the first of Admiral Schley's witnesses was introduced.

Capt. Francis A. Cook, who commanded Admiral (then Commodore) Schley's flagship, the Brooklyn, during the Spanish war, and who acted, though unofficially, in the capacity of chief of staff for the commodore, was on the witness stand the greater part of the day. He was followed by Lieutenant-Commander William F. Fullin, who was senior watch officer on the New Orleans during the Spanish war, and former Lieut. Jos. Benly, who, as an officer on the Hurwar, translated the elph dispatches between Commodore Schley and the navy department carried by that vessel. Among those dispatches was that sent by Commodore Schley to the navy department at St. Paul, la., explaining his action in the original draft of this dispatch and the official print of it, and these, Mr. Benly explained.

Capt. Cook was the last of the government witnesses, although Capt. Lemly explained that he would reserve the right to call others if occasion should demand that he do so. He had no sooner retired than the first witness for Admiral Schley was called. This proved to be the Cuban officer, Don Juan Nunez, who told Schley on May 26, 1898, that he did not believe the Spanish fleet under Cervera was in the harbor at Santiago.

Capt. Cook's testimony was a review of the entire campaign after Cervera's fleet, beginning with the departure of the flying squadron from Key West on May 19, and concluding with the battle off Santiago July 3. He said that at first it had been believed by both Sampson and Schley that the Spanish fleet was in the harbor at Cienfuegos, and that no information to the contrary had been conveyed to Commodore Schley until the arrival of Capt. McCalla on May 24; that it was Commodore Schley's expectation to meet the Spaniards in the open sea, and his constant conviction was to have come enough for such emergency. He gave particulars concerning the retrograde movement, and explained the Brooklyn's loop, for which he assumed personal responsibility, in connection with a graphic account of the engagement of July 3. Asked for an opinion as to Admiral Schley's bearing as a commanding officer, he said:

"I always regarded him as an enthusiastically brave and patriotic officer."

CHALLENGED THE WHOLE JURY

Officers of the Court Charged With Packing the Jury For Purposes of Conviction.

Georgetown, Ky., Oct. 15.—After the jury was completed, yesterday afternoon, in the trial of ex-Secretary of State Caleb Powers, charged with being accessory to the murder of Gov. Goebel, the defense challenged the whole jury, and the officers of the court with packing the jury for the purpose of conviction. Both sides presented affidavits and arguments, and Judge Cantrill overruled the motion of the defense to disqualify the jury and also the demurrer to the indictment, to which the defense took exceptions.

Witnesses were sworn and a list of attorneys on both sides furnished the court.

Water Fowl Headed Southward.

St. Louis, Oct. 15.—A wild wave of ducks and geese struck this locality Saturday night and Sunday morning. The migration reached as far south as Arkansas. All the incoming trains brought news of phenomenal flocks of ducks and geese being seen in all directions.

PE-RU-NA CURES CATARRH OF KIDNEYS EVERY TIME.

DANGEROUS KIDNEY DISEASES CURED

Perna Creating a National Sensation in the Cure of Chronic Afflictions of the Kidneys.

Mr. John Vance of Hartford City, Ind., simply says: "My kidney trouble is much better. I have improved so much that everybody wants to know what medicine I am using. I recommend Perna to everybody and some have commenced to use it. The folks all say that if Dr. Hartman's medicine cures me it must be great."—JOHN VANCE.

Mr. J. Braks, of Petros, Ontario, Canada, writes: "Four years ago I had a severe attack of Bright's Disease, which brought me so low the doctor said nothing more could be done for me. I began to take Perna and in three months I was a well man, and have continued so ever since."—J. Braks.

At the appearance of the first symptoms of kidney trouble, Perna should be taken. This remedy strikes at once the very root of the disease. It at once relieves the catarrhal kidneys of the stagnant blood, preventing the escape of serum from the blood. Perna stimulates the kidneys to excrete from the blood the accumulating poison, and thus prevents the convulsions which are sure to follow if the poisons are allowed to remain. It gives great vigor to the renal action and digestive system, both of which are apt to fail rapidly in this disease.

If you do not derive prompt and satisfactory results from the use of Perna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

THURSDAY, OCTOBER 17, 1901.

EVERY day the miners work makes better times for Hopkins county farmers, merchants and other people. Hopkins county miners have been working three hundred days in the year and have been paid about \$800,000 per annum. They are still working and earning good wages notwithstanding the uncrupulous efforts of the foreign agitator and his local backers. At union mines in the Western Kentucky field the men have lately worked about half time.

The Madisonville Hustler had this to say in its issue of March 30, 1900, when union miners of other states and counties threatened to come to Hopkins and run things as they have tried to do this year:

"The idea of large bodies of men from other sections entering Hopkins county for the purpose of interfering with the affairs of our people is repugnant to them and they will use all lawful means to prevent anything of the sort happening."

The following extract from the speech of Judge J. F. Dempsey made at the May term of Circuit Court tells the truth of the mining situation in Hopkins county as it was then and is today.

Judge Dempsey said: There is no fight on here between the St. Bernard Coal Company and its employees and between other companies and county and the men who dig and delve in the bowels of the earth, and bring forth the black diamonds that are thrown upon the market, and contribute so materially to the welfare and prosperity of Hopkins county. This is a fight between organized labor and unorganized labor. The two thousand men who work in the mines of Hopkins county are satisfied with their employment, with their wages, with their hours, and they only ask to be let alone and allowed to continue to work day by day for a living for themselves and their wives and children.

Is He Debauching the South?

The Stanford (Ky.) Interior Journal is not pleased with the appointment of former Governor Jones to be United States Judge in Alabama, and takes President Roosevelt seriously to task. The Interior Journal is a Democratic paper, and ought to know of what sort of staff Southern Democrats are made, yet it deliberately charges that the appointment was in the nature of a bribe by the President, and proceeds to moralize to the effect that "the policy of bribery is immorality itself. It is the bribery of a section. It is the most colossal and shameless scheme of political debauchery ever outlined on this planet," and so on and so forth for quantity.

"It is the bribery of a section," says the Interior Journal, and the meaning thereof, if it there is meaning to it, is that the President of the United States has, by the appointment of a Democrat to the Federal bench, bribed an entire section of the country, or, at least, has bribed the State of Alabama. Is that the sort of stuff of which Southern Democrats are made? Are Southern Democrats so venal and purchasable as to be bribed by sections, by the appointment of a Democrat to official position?

The Democratic Interior Journal, of Kentucky, says so, but it is not true. Southern Democrats are not made of that sort of stuff, and the President of

the United States, Theodore Roosevelt, himself of Southern extraction, by his maternal ancestry, is not the man to offer a bribe nor the man to appoint to office—especially judicial office—a man who was open to bribery, not regarding the fact of the appointee's Republicanism or his Democracy.

"The President," says the Interior Journal, "The President, who hopes in this manner to win recruits for protectionism, for bounties and for subsidies, stands with an open bribe in one hand and with throttled law in the other."

Gosh, Teddy, you oughtn't to do that sort of thing!—Cincinnati Commercial-Tribune.

Brain Food Nonsense.

Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for the brain, another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body but it will sustain every other part. Yet, however good your food may be, its nutriment is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aid digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get Dr. G. G. Green's reliable remedies at St. Bernard Drug Store. Get Green's Special Almanac.

MR. YERKES AND THE CABINET.

Washington Post Thinks the Kentucky Will Stand a Good Chance to a Portfolio.

Washington, Oct. 11.—It has been evident for some time that President Roosevelt held Commissioner Yerkes in high esteem. The following from the Washington Post this morning shows that others are appreciating this fact: "It is interesting that many Southern Republican leaders, especially those from the uppermost tier of Southern States, are snuggling up to Internal Revenue Commissioner John W. Yerkes, of Kentucky."

"Mr. Yerkes is believed to be very close to President Roosevelt. He is recognized as a capable and representative Republican, of excellent judgment, and, with the reorganization of the cabinet, which is almost inevitable in the course of a few months, some think Mr. Yerkes may be given a portfolio."

President Milo Shanks presided at the Kentucky Club's meeting last night. The club discussed the Kentucky Republican situation, and seemed to find the outlook more encouraging. Resolutions were passed revering the memory of the late President William McKinley.

The resolutions were prepared by a committee of which Mr. John W. Langley was chairman, and were ordered spread upon the records.

The Hon. John W. Yerkes has accepted an invitation to address the club at the regular weekly meeting next Thursday night.

Grapevine Items.

Saturday's rain was the hardest of the season in this section.

Little Miss Hazel Slaton spent a week with her cousins, Mabel and Bonnie Slaton, with the grandmother, Mrs. Sarah Slaton's recently.

Mrs. Elizabeth Morrison and Mrs. Bell, of Logan county, who have been visiting relatives here returned home last week.

James Vickers and Louis Brooks exchanged farms last week.

Miss Sallie Boardman will leave this week for Louisville where she expects to attend school.

John Staton, who has been suffering for some time with rheumatism, is improving.

The coal banks of this vicinity have been kept quite busy this fall. Will Crenshaw left this week for Mt. Vernon, Ind., where he goes to work the balance of the season. He drove through in a buggy.

Bud Walker left Monday for Mississippi where he is expected to position with a timber concern.

TO TUNNEL BERING STRAIT

Plans for an Overland Route From America to Europe.

The long hoped for realization of a project whereby people who dread the sea can make a journey from America to Europe entirely overland may be nearer than most people imagine. Harry de Windt, the explorer, has been intrusted with the task of surveying the wilds of northeastern Siberia with a view of running a tunnel under Bering strait at its nearest point to America and thus connecting the old world with the new. He will start on his journey in a very short time.

Mr. De Windt's immediate plan is to cross Bering strait on the ice. He will start from Paris and cross Russia by way of the Transiberian railway.

The recent rains have done considerable damage in Union and Webster. Bridges have been washed away in many instances.

Rev. W. A. Burns, of Sturgis is attending the Theological Seminary at Louisville.

Miss Sadie Blackwell, of Dawson Springs, who was reported seriously ill in our last letter is now thought to be improving.

Mr. N. S. Roberts, of Iron Hill, Crittenden county who has been visiting in this community the past week returned home Sunday.

A new lodge of the Knights of Equity was organized at Sturgis last night.

Rev. I. H. Teel is attending the convention of the National Missionary Society in Minneapolis, Minn. Before returning home he will visit various points of interest in the Gopher State.

Mr. Jesse W. Smith and Miss Lucy Tutt were married Saturday. The bride was a resident of this place while the groom was a farmer living near Hearin.

Miss Bertha Chapman, of Texas, is visiting in Morganfield. Grangerston claims to have the youngest postmaster in the service, Wm. Sullivan, Jr., aged 13, fills the position.

Senator J. W. Watkins is in Louisville and has established a temporary office for use during his stay in the Big City.

The young people of Morganfield have organized a dramatic club.

There have been about a dozen weddings of Union county couples since our last writing. What record indeed!

Mrs. Luke Richards and daughter of Morganfield, are visiting in Louisville.

Rev. R. B. Crossfield, P. H. D., of Owensboro, is delivering a series of lectures in this county on his pilgrimage in Palestine.

Henry Robinson will spend the winter at Hot Springs, Ark.

Local sports are longing for the opening of the hunting season. Much pleasure is anticipated by the enthusiastic aimed.

C. W. C.

"For three days and nights I suffered agony untold from an attack of cholera morbus brought on by eating cucumbers," says Mr. E. Lowther, clerk of the district court, Centerville, Iowa. "I thought I should surely die, and tried a dozen different medicines but all to no purpose. I sent for a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and three doses relieved me entirely." This remedy is for sale by St. Bernard Drug Store, Earlington; Ben T. Robinson, Morgans Gap; Geo. King St. Charles.

Mat Cohen, of Richmond, last week shipped to New York a carload of horses—twenty head—that sold at prices ranging from \$500 to \$1,000 each.

Modern links date from 1798, at which time researches of Dr. Lewis and Ribanourt in the chemistry of ink began.

BERTHA GALLAND. Her name was totally unknown in the metropolis, though she had been playing in repertoire companies for some little time. But from the first night of her appearance in the role of the Princess of Denmark she was one of the most talked of actresses in that city.

Few expected, however, that in a year's time she would be exploited as a star herself and by no less a manager than Daniel Frohman. The results would seem to justify his venture, for whether "The Forest Lover" prove long lived or short lived it has been the means of emphatically showing that Miss Galland has real genius.

"For three days and nights I suffered agony untold from an attack of cholera morbus brought on by eating cucumbers," says Mr. E. Lowther, clerk of the district court, Centerville, Iowa. "I thought I should surely die, and tried a dozen different medicines but all to no purpose. I sent for a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and three doses relieved me entirely." This remedy is for sale by St. Bernard Drug Store, Earlington; Ben T. Robinson, Morgans Gap; Geo. King St. Charles.

Success—Worth Knowing.

Forty years success in the South proves Hughes' Tonic a great remedy for Chills and all Malarial Fevers. Better than Calomel and Quinine. Contains no Arsenic. Guaranteed, try it. At Druggists. 50c. and \$1.00 bottles.

"The Best is the Cheapest."

Not how cheap, but how good, is the question. THE TWICE-A-WEEK REPUBLIC is not as cheap as are some so-called newspapers. But it is as cheap as it is possible to send a first-class newspaper. It prints all the news that is worth printing. If you read it all the year round, you are posted on all the important and interesting affairs of the world. It is the best and most reliable newspaper that money and brains can produce and those should be the distinguishing traits of the newspaper that is designed to be read by all members of the family.

SHORT LOCALS.

Mr. J. V. McEuen and family, of St. Charles, were in the city a short while Thursday afternoon en route home from Madisonville.

In refusing to clergymen the right to visit Caleb Powers, Judge Cantrell undoubtedly believes he is commending himself to the Democratic party of Kentucky in his Senatorial race. What a contemptuous opinion Judge Cantrell must have of Kentucky Democracy, to be sure!—Cincinnati Commercial Tribune.

Mr. and Mrs. S. E. Cozatt, who have been residing here for a little over a year, left Sunday afternoon for Chattanooga, Tenn. They were accompanied by Miss Kittie Molten, who had been visiting there for some time. Mr. Cozatt was a dispatcher and while here he and his wife won many friends who regret their departure.

"Grandma" Cramer, who is so well known and universally loved, desires to express her thanks to the friends who were so kind to visit her and bring flowers, and for various other kind deeds that helped to brighten the sick room while she was so ill. We are glad to note that Mrs. Cramer is almost recovered from her illness and hope to see her out again soon.

IF I WERE YOU.

I wouldn't look so cold and proud
And hold my head so high
I could not see a humble friend
When he was passing by—
If I were you.

I wouldn't cast a mocking glance
At the clothes some people wear,
Nor add an atom to the load
Their hearts already bear—
If I were you.

I wouldn't slight a lowly friend
Who thought my heart was true,
And stamp his face with a look of pain
As I have seen you do—
If I were you.

I wouldn't pretend I was good,
Just to deceive the folks,
Then get out in certain crowds
And tell the toughest kind of jokes—
If I were you.

I wouldn't say I'd been to lodge
And could not get away
When half the town knew that you
Had been to see the play—
If I were you.

I wouldn't go to a musical
And leave my wife at home,
And tell all her friends you saw
She was sick and couldn't come—
If I were you.

I wouldn't smile at all the girls
In passing through the town,
And when I met my wife at home
Greet her with a frown—
If I were you.

I wouldn't spend my hard-earned cash
To paint a bloom upon my nose,
When my wife and children
Were in need of shoes and clothes—
If I were you.

I wouldn't talk about my neighbors
And tell things that were not true,
When, if the truth was known,
They're not half so bad as you—
If I were you.

I wouldn't talk about the preacher
And make fun of him on the way,
Then when you meet him face to face
Tell him he's as good as pie—
If I were you.

I wouldn't defraud the ignorant,
Nor grind the faces of the poor,
Nor turn a hungry man away
With nothing from my door—
If I were you.

I'd be a man and not my part,
Be noble, true and good;
Live so that all the world might say,
He did the best he could—
If I were you.

Snake.

This season's sea-serpent story takes the form of a sea of snakes. A ship just arrived in Philadelphia reports a belt of snakes fifteen miles wide in the Indian ocean. The snakes, averaging 8 feet in length, were of an unknown species and are supposed to have been brought to the surface by a volcanic disturbance.—Globe-Democrat.

Deafness Cannot be Cured.

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out of this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness caused by Catarrh that cannot be cured by Hall's Catarrh Cure. Send for circular.

A Fiendish Attack.

An attack was lately made on C. F. Collier of Cherokee, Iowa, that nearly proved fatal. It came through his kidneys. His back got so lame he could not stoop without great pain, nor sit in a chair except propped by his hands. No remedy helped him until he tried Electric Bitters which effected such a wonderful change that he was able to walk like a new man. This marvelous medicine cures backache and kidney trouble, purifies the blood, and builds up your health. Only 50c at St. Bernard Drug Store.

MR. WATTERSON A CANDIDATE.

Ready to Take the Nomination for Governor to Succeed Gov. Beckham.

Louisville, Ky., Oct. 14.—The Post says today: "The most interesting political event of the past few weeks is the announcement by Henry Watterson of his candidacy for the Democratic nomination for Governor. During the past week Mr. Watterson has told a number of gentlemen in this city that he is already a candidate for the nomination before the next Democratic convention and has solicited their support. So far his canvass has been much in the nature of a still hunt."

It Happened in a Drugstore.

"One day last winter a lady came to my drug store and asked for a brand of cough medicine that I did not have in stock," says Mr. C. B. Grandin, the popular druggist of Ontario, N. Y. "She was disappointed and wanted to know what could be done. I told her that I could freely recommend Chamberlain's Cough Remedy and that she could take a bottle of the remedy and after giving it a fair trial if she did not find it it would be her money to bring back the bottle and I would refund the price paid. In the course of a day or two the lady came back in company with a friend in need of a cough medicine and advised her to take Chamberlain's Cough Remedy. I consider that a very good recommendation for the remedy. It is for sale by St. Bernard Drug Store, Earlington; Ben T. Robinson, Mortons Gap; Geo. King, St. Charles."

Good News to the Sick.

COURT OF CLERICALS

PROTESTANT EPISCOPAL TRIENNIAL CONVENTION IN SAN FRANCISCO.

Second question of the Remembrance of Divorced People Up For Discussion—Possibility of a Change in the Name of the Church.

The year 1901 has been a banner year for church conventions, indeed for conventions of all sorts. At the present time San Francisco is occupied with the entertainment of a dignified and distinguished body of clerical and laymen who are attending the triennial convention of the Protestant Episcopal church. The convention is the supreme judicial body of the church, and it is expected to transact a vast amount of business before its three weeks' session comes to an end.

The membership of the convention stems it from the most dignified and conservative ecclesiastical gatherings held in this country. It includes all the bishops in the church, ninety in number, many of whom have an ecclesiastical reputation for scholarship, together with prominent rectors and lay delegates from every walk in life—lawyers, business men, financiers and physicians.

The convention is composed of two houses, the house of bishops and the house of minor clerical and lay delegates. Each body elects its presiding officer. In the upper house, if the house of bishops can be so termed to distinguish it from the other body, the chairman is not of necessity the dignitary known as the "presiding bishop." The presiding bishop, who at the present time is Bishop Clarke of Rhode Island, is simply the senior bishop in the point of consecration. The lower house, which contains something like 500 delegates, during its sessions for the last fifteen years has been presided over by the Rev. Dr. Morgan Dix of New York, whose health has of late been seriously impaired. Dr. Dix's place as a delegate has been taken by the Rev. J. Lewis Parks.

The houses sit separately, but to be effective all action of the convention

must be concurrent. In the house of deputies the clergy and the laity sit together and usually vote together, but on demand a separate vote may be taken. Some momentous questions are before the present convention, the most important being a new canon concerning divorce and what is called the provincial question. There will also be an effort to change the name of the church.

At the last convention, which was held in Washington, a committee was appointed, with Dr. Dix as chairman, to recommend a revision of the canon concerning marriage and divorce. This committee after mature deliberation decided to draw up a canon which is entered in all its requirements concerning marriage and divorce that is the existing one, not only as to the contracting parties, but also to the priest or rector performing the marriage ceremony.

Under the present law the remarriage of innocent parties is permitted and divorcees are free to officiate, but if the proposed measure is passed by the convention the clergy will be prohibited from remarriage either party to a divorce for any cause and from admitting either of them to holy communion except the innocent party to a divorce for a Scriptural offense. It is impossible to conjecture what action the convention will take, but it is safe to assume that its conservative tendencies will militate against anything hasty or radical.

The provincial question concerns the geographical division of the church. For some time it has been proposed to divide the church in this country into five or six provinces, corresponding to the provinces of the Church of England in both England and Canada. This would necessarily involve the creation of another order in the clergy. Opinion on the usefulness of such action by no means unanimous.

As regards the name of the church there are many who believe the title Protestant Episcopal to be confounding and misleading, holding, as all members of the church do, that there is a branch of the historic Catholic church.

The great missionary work of the church is entrusted by the convention. Many meetings outside of the convention have been held in view, such as gatherings of the women's societies, the Young Men's Association, the Brotherhood of St. Andrew and similar organizations.

A place of interest to delegates is the Crocker and the Morgan. Dr. Morgan has been elected. The treasurer is one of the most prominent lay delegates to the convention, and he is entertaining his convicts. FOLEY'S KIDNEY CURE makes the kidneys well. Jno. X Taylor.

THE BIG STORE

The new season dawns. Dawns with stronger trade possibilities than ever before. Stronger for this store, because the buying has been bigger, broader, better. Crescent Sanitarium

COR. FIRST AND WALNUT STS.

EVANSVILLE, IND.

The Crescent Sanitarium wishes to call the attention of the public to the fact that it has been open for the reception of patients for a year and a half, during which time over 150 surgical operations were performed without a death or a single case of blood poisoning. Patients have all advantages of hospital facilities, and at the same time enjoy all comforts of home life thus avoiding the restrictions and publicity necessary in public hospitals. A corps of trained nurses are in constant attendance, thus avoiding delay in gratifying the slightest wants of the patient.

Struck an Open Switch.

Loveland, O., Oct. 13.—The New York express on the Pennsylvania road struck an open switch at Sorrell's Stone arch while running 50 miles an hour. Engineer Emanuel L. Smith, who was in the engine, said the fireman was also hurt, but not seriously.

His Time for Disappearing.

Louisville, Ky., Oct. 13.—Rolla C. Pierson, postmaster here, has disappeared, leaving in a shortage of \$200 in his accounts. Pierson addressed a letter to his bondsmen saying he was short, and instructing them to take charge of the office.

Murder Suspect Arrived.

Winfield, Kas., Oct. 15.—William Humphreys, aged 27 years, a farm hand, has been arrested in Oklahoma and charged with the murder of a woman on the train at Winfield, last week, of ontgomery, the Santa Fe detective.

Servants to Have an Organ.

Chicago, Oct. 13.—The servant girls of the city are to invade the weekly evangelist field. Their organ is to be devoted to the interests of working women. The first issue is expected to appear in November.

Church Edition Dedicated.

Virginia, Ill., Oct. 15.—The new, thirteen church edifice at Arzville, miles southwest of this city, was dedicated Sunday.

"One letter, — just one — to tell you I reached home safely?"

Lizzie shook her head. "No, there must be absolute silence between us for a year; I wish to test your powers of memory and your constancy."

"Twelve months is a long time little girl, but one year from to-day, God willing, I expect to stand with you in this same lane, down which we have taken so many well remembered walks, to clasp your hand in mind, look steadfastly in your sweet, blue eyes, and say, 'I am here, I've been true; now let my hungering heart hear the words you returned me one year ago.'"

By this time they were nearing the house. Carrington stopped and softly said, "Sweetheart, I don't suppose you would let me kiss you?"

For answer, Lizzie snatched a leaf from a sumach bush, passed it lightly across her lips and threw it to him, then ran laughingly in the house. Carrington followed with a gleam of satisfaction sparkling in his eyes.

A wise purchase of drugs is a great deal more fortunate than the finding of a pocketbook. The luck of finding a pocketbook only occurs once.
